

Client Representatives: Site Investigation & Survey

Based: Worldwide

Salary Range: Competitive day rate

Job Ref: 0234

Due to a continuing and growing demand for our services, Intertek METOC currently has a number of vacancies in the Oil & Gas, Marine Cables and Offshore Renewables Sectors. We currently require:

We are looking for suitably qualified, high calibre geophysical and geotechnical consultants to act as Client Representatives on existing and future site investigation projects.

Key requirements:

- 10 + years marine site investigation experience
- High level of technical expertise in relevant discipline
- Thorough understanding of data acquisition techniques and interpretative reporting
- Knowledge and understanding of current site investigation standards
- Positive and pro-active approach to HSEQ
- Ability to work both independently and as part of a multi-discipline team
- Ability to communicate effectively with colleagues, contractors and clients
- A pro-active and dynamic approach to working.

In return for your skills and experience, we offer a competitive day rate, full insurance cover, technical and logistical support, 24 hours a day / 365 days a year.

If you are someone who would like to make a difference and are interested being considered for this position, or would like more information, please send your CV with a covering letter outlining your suitability to:

Diane Summers, Intertek METOC, Exchange House, Station Road, Liphook, Hampshire GU30 7DW
