

Survey Operations Manager

Based: Liphook Job Ref: 0233

Following a period of sustained growth and increased operations across all our sectors, Intertek METOC now require an office-based Survey Operations Manager to join its Site Investigation & Survey Team. Part of the Intertek group since late 2010, we are set for further significant growth and internationalisation.

The Survey Operations Manager will supervise the planning, execution, evaluation and continuous improvement of offshore survey services provided to our clients worldwide. The aim is to ensure client requirements are met and client risks managed whilst maximizing the value of the operations. The Survey Operations Manager will oversee the performance of all survey operations and contractors to ensure the surveys meet all technical, regulatory, quality, HSE, cost and schedule requirements of the projects.

Key Responsibilities:

- Coordination and project management of all Site Investigation & Survey offshore operations throughout the world.
- Technical and operational advice to survey contractors, on-site representatives and project team.
- Liaison with Clients and Project Stakeholders.
- Monitor and report survey progress and technical and QHSE compliance.
- Implementation of Company/Client standards and procedures and input into the survey contractors' proposed project execution plan.
- Operating within a well established and positive QHSE environment.
- Act as Company Focal point for marine survey operations across all sectors and services.
- Support multi-disciplinary technical teams with project delivery as required.

Essential qualifications and experience required are:-

- Degree educated in the Earth Sciences or Hydrographic Surveying.
- 8 -15 years relevant experience in the offshore Site Investigation & Survey industry.
- Technical expertise in data acquisition, with knowledge of processing and interpretation.
- Previous 'hands on' experience of offshore operations management/supervision.
- Effective management skills.
- Competent report writing ability.
- Proven ability to work under pressure and to tight timescales.
- Understanding of QHSE management systems.
- Knowledgeable of coordinate systems, projections, spatial data management and the importance of data integrity in a GIS environment.

This post will be located at our main offices in Liphook, Hampshire.

To apply please send your CV with a covering letter outlining your suitability to:

Christine Perrin, HR Manager, Intertek METOC, Exchange House, Station Road, Liphook, Hampshire GU30 7DW
