

Senior Consultant, Marine Cables

Job Ref: 0205, (Salary negotiable: based in Liphook, Hampshire)

Metoc currently has a number of exciting projects in the Interconnector Cables and Offshore Wind Farm sectors. Due to this growing demand for our services, we have opportunities for a talented individual to develop his or her career with us.

We are looking for a Senior Consultant who will use their technical expertise to develop innovative solutions for our clients. You will provide leadership to project teams, and you will manage a portfolio of existing and developing projects. You will be comfortable dealing directly with our clients.

The candidate will have experience of working offshore and of cable procedures – particularly planning and installation. Knowledge of power cables would be an advantage, as would vessel operation coupled with health and safety.

Although, primarily based in Liphook the position will require significant periods working from our other offices or on site.

In return for your skills and experience, we offer real opportunities to develop your professional competencies, and your career. We operate a flexible working policy, and we can offer you a competitive salary and benefits package, with non-contributory pension, life assurance scheme, discretionary company bonus, and support for relocation, if needed.

If you are interested in applying for this vacancy, or would like more information, please send your CV with a covering letter outlining your suitability to: dianes@metoc.co.uk or to Diane Summers, HR Executive, Exchange House, Liphook, Hants GU30 7DW (Tel: 01428 729545)
